Face 2 Face in a Frenzy

Zarco Guerrero

In *Face 2 Face in a Frenzy*, Latino artist-carver-performer, Zarco Guerrero, brings ancient archetypes to life in this entertaining folly featuring a curious cast of hand-carved characters. This unique show reveals the power of the mask to transform. Zarco miraculously changes before your very eyes into various personalities, through which he addresses issues of diversity, discrimination, aging, and nonviolence. While provocative, this dynamic show is suitable for all ages, as it explores the mystery of the heart and mind.
